

enviro-cashback

Application form

What is enviro-cashback?

The BP Solar enviro-cashback is a cashback offer paid to customers who install eligible solar electric systems using BP Solar modules. It is a combination of a manufacturers rebate (paid by BP Solar) and a payment for the value of the emissions savings (known as Renewable Energy Certificates or RECs). In exchange for any cashback, BP Solar will ask you to assign the rights to any RECs that you may be entitled to in accordance with Federal Government legislation, which BP Solar may use for emissions trading. You are under no obligation to assign the rights or accept the enviro-cashback offer, however it is only payable by BP Solar if the rights to your REC's are assigned to BP Solar. Please refer to the eligibility criteria below for further details. The enviro-cashback offer currently runs from **1st January 2007 to 30th June 2007** and is only payable on **new** solar modules/systems/installations incorporating BP Solar modules, sold and installed during this period. Enviro-cashback is subject to change without notice.

What is a Renewable Energy Certificate (REC)?

To encourage additional electricity generation from renewable energy sources, the Australian Federal Government, has set in place a scheme under which certain tradeable rights can be created for the generation of renewable energy or for the reduction of emissions of greenhouse gases. These rights include **Renewable Energy Certificates** under the *Renewable Energy Electricity Act 2000 (Cth)*, NSW Greenhouse Abatement Certificates under the *NSW Electricity Supply Amendment (Greenhouse Gas Emissions Reductions) Act 2002 (NSW)* and rights under private contracts between parties. Solar electric systems like the one you have purchased can be eligible for creating RECs. More detailed information on REC's can be found at <http://www.orer.gov.au>

The options for dealing with any RECs arising from this installation are:

1. Do nothing (this means the REC's have no value to anybody),
2. Create and use the REC's yourself, you may choose either 1, 5 or 15 year deeming in which case you will need to register with the Office of the Renewable Energy Regulator, pay the fees involved to register as a registered person to create them and then either keep them or find a purchaser for them; or
3. Assign the REC's to another party like BP Solar who will create the RECs.

In purchasing a solar electric system, BP Solar offers you the opportunity to elect option three (3) – that is, to assign the eligible RECs from this installation to BP Solar, in return for an 'enviro-cashback' on the price of the system which you have purchased, paid by BP Solar to you in the form of an Electronic Funds Transfer (**EFT**) to your bank account within **60 days** of receipt of your successful application.

Terms and Conditions of enviro-cashback

The following terms and conditions must be met to ensure eligibility for enviro-cashback:

- BP Solar enviro-cashback will pay: A\$0.50c/watt for assignment of RECs for 15 years.
- The program will run from **1st January 2007 to 30th June 2007**.
- The applicant must be the legal owner of the system.
- The applicant has not and will not assign the RECs to any other party.
- The system must be sold, installed and commissioned in Australia, prior to applying.
- The installation must be signed off by the installer as being compliant with relevant Australian Standards.
- Enviro-cashback is only payable on **new** solar modules/systems/installations incorporating BP Solar modules, sold and installed between **1st January 2007 to 30th June 2007**.
- A copy of your system invoice and solar module serial numbers must be provided.
- The system must be between **115 Watts** and **100,000 Watts** installed capacity.
- BP Solar's Enviro-cashback is only payable once per system, 15 year deeming, no additional rights are available to you.
- Applications for enviro-cashback must be made within 30 days of the system installation date
- BP Solar reserves to the right to decline any enviro-cashback application if any of the terms and conditions are not met, or if the system does not meet the relevant federal agencies legislation and guidelines for RECs.
- I agree that the Office of the Renewable Energy Regulator (ORER) and/or BP Solar or its appointed agent can inspect my system within the first five years of operation.
- I understand that there may be penalties applied for providing misleading information in this form under the Renewable Energy (Electricity) Act 2000.
- BP Solar reserves to right to amend or withdraw the offer at any time.

SYSTEM OWNER DETAILS

Title _____ First Name _____ Surname _____

Installation Address _____

City _____ State _____ Postcode _____

Postal Address _____

City _____ State _____ Postcode _____

Phone _____ **Mobile** _____

Email _____

Ownership Details: System owned by a business System owned by an individual

(if owner is a business) Company _____ ABN _____

Payment by EFT:

Your Bank's Name _____

Bank Address: _____

BSB (Bank, State, Branch): _____ Bank Account No: _____

Bank Account in the name of: _____

I, the system owner declare that:

1. By submitting this Application Form to BP Solar Pty Ltd, I am assigning all of my Emission Reduction Rights, including my RECs for a period of 15 years, associated with the solar electric system described herein to BP Solar Pty Ltd,
2. I have read and understood the explanation of what is being assigned to BP Solar Pty Ltd under this Application Form,
3. I am (or the company I represent is) the owner of the solar electric system described in this application Form
4. I have not assigned any Emission Reduction Rights, including RECs from the installation of this system to a party other than BP Solar Pty Ltd,
5. I understand that I will receive no enviro-cashback should this installation prove to be ineligible for any Emission Reduction Rights, including RECs.
6. If I have not quoted an Australian Business Number (ABN) in this Application Form, it is because my assignment of Emission Reduction Rights, including RECs, to BP Solar Pty Ltd is in my capacity as an individual, and the assignment of Emission Reduction Rights, including RECs, to BP Solar Pty Ltd is wholly of a private or domestic nature for me,
7. If this system has been installed for and is owned by a business, then I have quoted an ABN in this Application Form, and understand that BP Solar will calculate and pay GST along with my enviro-cashback, and will issue me with a Recipient Created Tax Invoice,

I have checked that the details on this form are correct, and agree that BP Solar Pty Ltd can use this information for statutory reporting purposes only, and that the information will remain commercial-in-confidence

Privacy Statement

BP Solar is committed to protecting your privacy. The personal information we collect in this form is collected for the primary purpose of processing your application for the cash back offer contained herein and verifying the eligibility for that payment. At any time you may gain access upon request to the information we hold about you subject to the Privacy Act 1988 as amended.

BP Solar may release information provided where there is a duty to the public to disclose that information, where we are required by law or where the interests of BP require disclosure. However, BP Solar will not sell or disclose that information to any individual or entity outside the BP Group or approved business partners without your permission. BP Solar may provide the information to approved business partners in relation to any follow up for the purpose of establishing whether you may wish to reassign the REC's at the end of their statutory life.

enviro-cashback survey form

NAME:

Congratulations on the purchase of a BP Solar Electric System. BP Solar strives to continually improve its products and services, including enviro-cashback. If you could please answer the following questions this will assist in our endeavours to meet the needs of customers.

How did you hear about enviro-cashback? Media <input type="checkbox"/> Distributor <input type="checkbox"/> Installer <input type="checkbox"/> Other:		
Do you understand what Renewable Energy Certificates (REC's) are?	Yes	No
Did enviro-cashback encourage your decision to purchase: <ul style="list-style-type: none"> • a new solar electric system? • upgrade an existing system? 	Yes Yes	No No
Did enviro-cashback encourage you to buy BP Solar products?	Yes	No
Please indicate the gender of the decision maker in your purchase?	Male	Female
Were you satisfied with the response and service you received from BP Solar Distributors\Representative and the installer? Comment.	Yes	No
Do you have any feedback on how we can improve our products?		
Please nominate your age group:		
	18-25	
	25-35	
	35-45	
	45-55	
	55+	
What was the biggest factor in your decision to purchase a solar electric system?		
	Environment	
	Necessity	
	Short term savings	
	Long term savings	
	Other
