

REGISTER OF SOLAR WATER HEATERS — POSTCODE ZONES

Version 1, 1 November 2007

The Register of solar water heaters contains details about each solar water heater model for which RECs may be created under Mandatory Renewable Energy Target. The number of RECs a particular solar water heater model is entitled to create will depend on its installation date and geographic location. The Regulator has determined four zones in Australia based on climate and solar radiation levels and has defined each zone by reference to the postcodes contained within it – the ranges of postcodes and their corresponding zones are listed in the table below.

POSTCODE ZONES FOR SOLAR WATER HEATERS

Postcode range From	To	Zone	Postcode range From	To	Zone	Postcode range From	To	Zone
0200	0299	3	3750	3898	4	5231	5261	3
0800	0862	1	3900	3900	3	5262	5263	4
0870	0872	2	3902	3996	4	5264	5270	3
0880	0909	1	4000	4419	3	5271	5291	4
1001	2914	3	4420	4420	1	5301	6256	3
